Verse 1

The sparrow and his friends, with their feathered wings
Fly above the clouds, they flap and chirp and sing
Have no care 'bout what they wear, God gives them all they need

The sun begins to set, they find a tree to rest
They make themselves a home, and build a little nest
Have no care 'bout where they live, God gives them all they need

Chorus 1

God loves the sparrows, and takes great care of them
He loves us even more, so don't worry for anything
God gives us all we need

Verse 2

The lilies of the field, with their sweet perfume
Standing in the breeze, their colours in full bloom
Have no care 'bout what they wear, God gives them all they need

The moon comes out to shine, their petals close to sleep
Until a new day comes, when the morning sun they'll greet
Have no care 'bout where they live, God gives them all they need

Chorus 2

God loves the lilies, and takes great care of them
He loves us even more, so don't worry for anything
God gives us all we need

(Chorus 2)
